## NEW POSTMASTER

Mr. W. Wooton is now in charge of the postoffice at Madisonville having taken charge this morning. Mr. Harvey has made a good postmaster and has given satisfaction during his term. No doubt but that Mr. Wooton will make as good a postmaster as the best. It will take him a few days to acquaint himself with the duties, etc. We wish him the greatest success in his new undertaking.

### "The Seven Seas"

"The Seven Seas" is a poetic name for the oceans of the earth. To answer definitely the question of "J. M. A." the "waters embraced" in the term include, therefore, all the great waters of the earth. Specifically, the seven seas are divided as the North and South Atlantic, North and South Pacific, Arctic, Antarctic, and Indian Oceans.

## Making a Name For a Town

The citizens of every town have it within their power to make or mar their own municipal name. It will be good or bad, just as they choose to make it.

We of this town are no exceptions to the rule, and the citizen who loves his own home will always bear it in mind.

There are many good points in favor of our community, and when the stranger comes to our midst we should not fail to impress these facts upon his mind.

We should take him in hand, exhibit the community as you would a blooded horse, let him understand that he is among a fair minded, energetic and generous hearted people, and when he goes to other climes he will speak as he has been spoken to.

That is the way reputations are made.

But there is another side, and it is there that mischief is too often done. The stranger enters our door and we immediately begin to complain of the community and of the people.

Nothing is as it should be. Everything is wrong and the town is on the way to the dogs.

And again the stranger speaks as he sees and hears.

That is the way reputations are destroyed.

Which is it to be with us.

## THOSE THAT HAVE-GET BY A.T. WESTON

## AMMUNITION SHIPMENTS

Explodes Near New York  
City—Sets Fire to Thirteen Warehouses

### AND CAUSES IMMENSE LOSS

New York, July 24.—Property loss estimated at \$25,000,000 was caused early today by a series of terrific explosion of ammunition awaiting shipment to the Entente Allies and stored on Black Tom Island, a small strip of land jutting into New York Bay off Jersey City. The loss of life still was problematical tonight. It will no be determined definitely until there has been opportunity to check up the workmen employed on the island and on boats moored nearby.

Two are known to be dead, and at least two more are missing. Scores of persons were injured, some of them probably fatally.

The detonations, which were felt in five states, began with a continuous rapid fire of small shells, then the blowing up of large quantities of dynamite, trinitrotoluene and other high explosives, followed by the bursting of thousands of sharpnel shells, which literally showered the surrounding country and waters for many miles around.

## Moving Pictures

Propagandists are turning more and more to the moving pictures as the means of reaching the people, and the film known as "The Battle Cry of Peace" undoubtedly had a greater influence on the preparedness measure in Congress, than anything that was written or said in the press or from the rostrum.

The "movies" certainly make a hit with the public. Thomas H. Ince has arranged a cinema-spectacle called "Civilization" showing the horrors of war. The production is in reality a peace play, and in magnificence there has never been anything to equal it. Unlike "The Battle Cry of Peace" Mr. Ince's production is not propaganda. It is purely a venture. The sentiment expressed in this great film has so captivated the people of the large cities that the production is classed as a big financial success.

It will likely be shown throughout the country, and the people of the smaller towns will have an opportunity to see it.

## FOREST FIRES ARE RAGING

In Northern Ontario—Death List Will Likely Exceed 200

Englehart, Ont., July 30.—Forest fires raging in Northern Ontario are believed tonight to have resulted in the loss of from one hundred and fifty to two hundred lives. Scores of persons also have been injured, and it is feared many of them may die.

Several small towns have been wiped out by the flames that have been raging for forty-eight hours.

Reports thus far received show that fifty seven perished at Mushka, a French Canadian settlement, and thirty four at Matheson.

Cochrane has eighteen dead and thirty-four injured; Iroquois Falls has fifteen dead and many injured, and Ramore, fifteen dead.

The number killed at Porcupine Junction is not known, but the entire town was destroyed except the railroad station.

The death list will be materially increased it is feared, by victims in outlying districts. There are apparently well authenticated reports that many prospectors have been trapped at Tashota and Kowash. One farmer and his ten children are known to have been burned, while the man's wife vainly was seeking aid to check the onrushing flames.

## HENDERSON FAIR

The Western Kentucky Fair at Henderson is on this week, beginning today and continuing until next Saturday. Wednesday will be Derby Day and a large number of Earlington people will attend. Reduced rates are effective on the L. & N. this week.

It is leap year, to be sure, but the boys are too bashful and the girls can't pluck up courage.

The next time you meet a grouch take good look at him. It is the way you appear when you are in the same class.

Out the weeds, mow the grass, and rush the garden along. The three speak well for the man and the town.

If it is true that a fool and his money upon part company our delinquent subscribers must be the quintessence of wisdom.

## FATHER OF MONROE GIRL SHOOT'S SELF

Worry Over Daughter's Case  
Is Said to Have  
Prompted  
Act

Elizabethtown, Ky., July 30.—John Monroe, father of Miss Ella Monroe, who is charged with killing her friend, Miss Eva Gregory, last winter, attempted to end his life last night by shooting. He probably will recover. Worry over the charges faced by his daughter are blamed for his action.

Monroe, who lives at Solway, this county, fired a rifle ball into his forehead. Physicians were hurried to his home and it is believed the wound will not prove fatal.

Miss Gregory was shot and killed late last winter. Following her death Miss Monroe was arrested. Her examining trial was held about three months ago.

Col. W. A. Toombs, of Earlington, spent a few days here last week.

There's a lot of good sound horse sense in this town, but we'd like to see it galloping around at a livelier rate.

If you would know something of the inner workings of your neighbor's home just note the attitude of his dog and cat. Their actions tell the story.

## TICKET SELLING CAMPAIGN

Started For The Hopkins  
County Welfare Chautauqua to be Held in

EARLINGTON AUGUST 12-14-15

The Committee for the Hopkins County Welfare Chautauqua that will be held in this city on August 12-14 15 have decided to put the ticket selling in the hands of twenty ladies, and these ladies will be entitled one free ticket for every ten whole tickets sold and the party selling the greatest number of tickets will be given a free trip to the Mammoth Cave with the Bee's party on August 26th or a cash prize of \$10.00. All who wish to enter this ticket selling contest are requested to be present at the Peoples Bank at 8:30 on Wednesday night when the committee will be selected. As this is the only Chautauqua to be held in this county this year it should be an easy matter to make it a success as people from Madisonville, Morgantown, Nortonville, St. Charles and other points will likely attend. The contestants in this ticket selling contest will not be limited as to territory and they will doubtless easily dispose of a large number of tickets before the contest closes, which will be at the end of the first nights performance. This contest will begin at 9 o'clock Thursday morning and every citizen of Earlington and the surrounding country are requested to patronize the Chautauqua only for the enjoyment and pleasure they will receive but for the good of the entire community and as evidence of their civic pride.

## Summer Time Sweets and Other Good Things

Sometimes I think that a good dessert is the very first test of a housekeepers table. It is an unnecessary part of the menu and, being thus entirely a luxury, it must be a very perfect one to fill as it should the difficult role of a dainty that is wholesome and reasonable—sweet, yet not too sweet; rich, yet not too rich; tempting, yet not too tempting; and in all exactly adequate to the satisfying of the renewed eagerness of appetite that its appearance suggests.

It goes almost without saying that summer time desserts must be light, or that if heavy, they should take the place of heavier dishes in the early parts of the menus. Never let your desserts, in summer of all times of the year, be "just that much too much."

Among ideal desserts right now are fruit jellies. They are always good and are particularly light and refreshing. Remember, when making these that your gelatin must always be soaked in cold water before being dissolved in hot, and that your sugar must be used according to the acid of the fruit, some fruits requiring more than others. One half cup to a pound is a good average proportion.

Lemon jelly is delicious made the ordinary way, and then, when a most cold, poured over the halves of fresh, firm peaches, either in individual molds or in one beautiful dish. Other combinations of fruit with gelatin jelly readily suggest themselves as charming opportunities for appetizing hot weather dainties. Betty Lyle Wilson, in August Southern Woman's.
